

OFFICE OF THE CHIEF OF POLICE

SPECIAL ORDER NO. 41

August 19, 2009

SUBJECT: ABSENTEE BOOKING PROCEDURES - REVISED

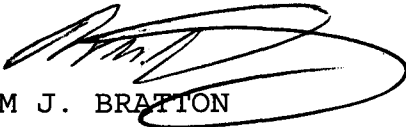

PURPOSE: The purpose of this Order is to transfer responsibility for physically obtaining ink-rolled fingerprints from the Latent Print Unit, Scientific Investigation Division (SID) to the Criminal Identification Section (CIS), Records and Identification Division.

PROCEDURE: The Criminal Identification Section shall be responsible for facilitating the capture of ink-rolled fingerprints when an arrestee is transported to the Los Angeles County-University of Southern California Medical Center or other hospital within Los Angeles County. If an immediate fingerprint-based identification is required prior to an opportunity for the use of Livescan, the arresting officer shall notify CIS to request that Fingerprint Identification Expert personnel respond to obtain ink-rolled prints.

NOTE: The acquisition of ink-rolled fingerprints does not replace the requirement that the transporting officer ensures the arrestee is electronically fingerprinted prior to transfer or release.

AMENDMENT: This Order amends Sections 2/335.35, 2/350.55 and 4/625.20 of the Department Manual.

AUDIT RESPONSIBILITY: The Commanding Officer, Internal Audits and Inspections Division, shall monitor compliance with this directive in accordance with Department Manual Section 0/080.30.

WILLIAM J. BRATTON
Chief of Police
